

SAFETY GUIDELINES & GENERAL INFORMATION

SAFETY IS PARAMOUNT

The Club does its best to provide safe trips. However, all outdoor activities of this nature attract some risk. You are responsible for your personal safety and your participation in trips acknowledges acceptance of this. Please make sure you choose an appropriate party suitable to your confidence, experience and current fitness. Make sure you have the required gear, including first aid, food and water and that you tell your leader of any medical condition. If you are unsure of anything, talk to the party leader.

ON THE BUS

No standing on the bus while it's moving.

A passenger to accompany the driver in the cab.

Do not open the door or alight from the bus until it is stationary and the engine is turned off.

To help keep the club bus clean, don't wear muddy clothing or footwear in the bus, and bring a bag to put your boots in after the tramp.

ON TRAMPS

Trip Organisers and Party Leaders are in charge and their decisions must be respected by all members of a party.

Always tramp together as a party.

It is recommended there are at least two people in a party.

In situations where, in the leader's judgement, some members of the party need to separate from the main party during a tramp, then:

1. A leader will be appointed for that separate party.
2. The leader of the separate party will understand the responsibilities outlined in the "Leader Guidelines and Responsibilities" document, including carrying navigational tools.

It is recommended you maintain sight of the persons in front and behind you.

Wait at all track junctions, tree windfalls and stream crossings until the party has reassembled.

Carry your own first aid.
